*"Pro" was my foundation sire and in the pedigree of all my horses. He was very versatile and was excellent as a reining cow-horse, roping calves, heading or heeling, poles or barrels. The only horse I've ridden that would sort and rope cattle in the pasture without me picking up the reins, responding fully to my voice and leg pressure.*

**Bryan Kenner**

*We mainly work alone doing ranch work with our horses. We take time to teach them how to effectively handle a cow, sorting or moving cattle with ease. All our horses are used to rope cattle in the pasture. We rarely put a cow through the chute to doctor. The horses are all started roping tied on hard and fast and are all taught to stay back and hold the rope tight while we doctor. These ranch working horses are easily adapted to arena events. Kenner Cattle Company is an approved Ranching Heritage Breeder. The horses selling today are eligible to be enrolled in the Ranching Heritage Challenge. We request that if a buyer of our horses should have a problem with a horse, they contact us. We're dedicated to the buyers satisfaction.*

*Sincerely,*

**Bryan Kenner**

This 15.3 hand gelding was ridden only a few times last year and has been ridden a lot on the ranch since last spring. I absolutely love riding this horse. He has a long sure footed smooth moving stride with lots of speed, a lot of feel and responsiveness. He has tremendous all-around ability and is doing well on the ranch sorting and roping. He will be started some arena roping before the sale.

A Sunday school teacher asked, "Johnny, do you think Noah did a lot of fishing when he was on the Ark?"

"No," replied Johnny. "How could he, with just two worms."
