Sonny's offspring are all real cowy with good minds and dispositions – easy to break with a lot of heart and stamina. All of his colts we've broke have made excellent ranch horses. Several have excelled in the arena.

**BERRY** has been my 'go to' horse for the last nine years. He is big, colorful, and gentle. I have drug calves, packed elk, pasture doctored and loaded trucks at the sale barn with him. You can turn him out all year and he acts the same as the last time you rode him. Berry, has lots of cow sense and will make some lucky family very happy.

**MAGNUM** is a nice gentle gelding with no buck along with standing 16 hands tall. He has been used to load trucks at the sale barn, pack elk in the mountains, drag calves to the fire and doctor sick cattle in the pasture. He will do whatever you ask and should make a nice rope horse.

"Coco" is a nice put together filly out of a great saddle mare I used at the sale barn. She is bred to be a great cow horse with Pitzer breeding and Claude Wood breeding on her pedigree.

Gray Gelding

**BLUE** is a medium sized gelding that loves to be around people. I have loaded trucks, drug calves to the fire and started him in the arena. Blue is a very athletic horse with enough speed to be a great timed event or barrel horse.

**"Bullit"** is a 6-year-old bay mare. 14.5 hands tall. Very gentle and will be perfect for an experienced child or someone looking for a smaller frame horse. Has had a lot done on her. She has been used during calving to pair out and will watch a cow. Also, much time spent trailing cattle.
